01 What is Practice Cases event?

Event Background

2nd WIC Wuzhen Summit in 2015

Global Internet Governance Four Principles

1. Respecting sovereignty in cyberspace.
2. Upholding peace and security.
3. Promoting openness and cooperation.
4. Building a sound order.

Building a Community with a Shared Future in Cyberspace Five-point proposal

1. Accelerating the building of global Internet infrastructure for greater connectivity.
2. Building an online platform for cultural exchanges and mutual learning.
3. Promoting innovative development of the digital economy for common prosperity.
4. Maintaining cybersecurity to promote orderly development.
5. Building a system of global governance in cyberspace to promote equity and justice.

Event Background

Since 2021

WIC initiated the event: Release and Presentation of Practice Cases of Jointly Building a Community with a Shared Future in Cyberspace

**Five-point
proposal**

5 Areas

- 1. Internet Infrastructure Construction**
- 2. Online Cultural Exchanges and Mutual Learning**
- 3. Innovative Development of the Digital Economy**
- 4. Cybersecurity Maintenance**
- 5. Global Governance in Cyberspace**

Review Mechanism

2 rounds review by international experts

About 60 cases will be included in the *Collection of Practice Cases*

About 12 Outstanding Cases will be presented at WIC Wuzhen Summit

02 What cases are suitable for application?

International cooperation in cyberspace

Implemented in 2 or more countries (regions) utilizing
the Internet and related technologies

projects, initiatives, actions, meetings, training, products,
services, dissemination... ..

Internet Infrastructure Construction

Accelerate universal access to the global network infrastructure, promote the construction of a new-generation information infrastructure, and enhance the level of global connectivity.

RuralStar Project provides network deployment solutions for remote areas in Africa, South America, and Southeast Asia, etc..

Global 5G Event: provides a platform for global cooperation in 5G policy, technology and industry.

ADC (Asia Direct Cable) dedicates to providing high-speed and stable submarine communication networks in the Asian region.

Online Cultural Exchanges and Mutual Learning

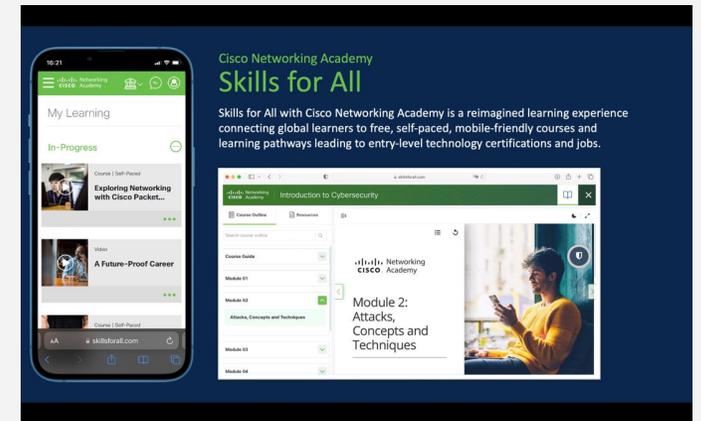

Foster global online cultural exchanges, academic exchanges, talent exchanges, knowledge sharing and media cooperation, and enhance inclusiveness and coexistence among civilizations.

Global Museum Treasure Hunt Relay: builds a platform for global cultural exchange using the Internet.

Digital DunHuang: empowers the protection of cultural relics and promotes global cultural sharing and academic exchanges using digital technology.

Cisco Networking Academy: provides digital educational opportunities to advance educational equity.

Innovative Development of the Digital Economy

Use digital technology to empower different industries and sectors and promote digital transition for global inclusive development.

Building international logistics corridors: empowers the logistics industry and promotes international e-commerce using digital technology.

Sustainable computing solutions: facilitates enterprises' energy conservation and emission reductions for sustainable development.

Digital poverty reduction: supports the participation of micro, small and medium-sized enterprises (MSMEs) from developing countries in global digital trade and contributes to digital poverty reduction.

Cybersecurity Maintenance

Carry out international cooperation on critical information infrastructure protection and data security, coordinate responses to cybersecurity incidents, and jointly maintain global cybersecurity.

Asian Games Sky Dome: secured "zero incidents" in network security for the 19th Asian Games in Hangzhou.

Cooperation in cybersecurity incident responses: joined forces with global parties to maintain cybersecurity.

Global Governance in Cyberspace

Build a communication and dialog platform for global Internet governance, and promote the construction of a fair and equitable network governance system.

China IGF: builds an open platform for Sino-foreign exchanges and consultations on Internet governance.

Smart City Expo World Congress (SCEWC): provides an international exchange platform on smart governance of global cities.

03 Review Criteria
